The learner will:			The learner can:		
1 Contribute to workplace environmental safety			1.1 Maintain environmentally safe working practices 1.2 Take precautions to minimise environmental damage 1.3 Identify any incidental damage and take prompt action to minimise it 1.4 Report environmental incidents and actions taken in response of them to the relevant person 1.5 Follow procedures to dispose of waste materials safely.		
Unit purpose and aim(s)			This unit is designed to assess the skills of learners in the workplace, contributing to environmental safety in food operations. It needs to be assessed on the job. The learner must be able to demonstrate their competent performance consistently over a period of time, to meet all of the assessment criteria. This will be achieved by at least two observations of performance in the workplace, and may be supported by witness testimony and other workplace evidence. Observations must ensure that the learner's working practice is at commercial speed and in compliance with standard operating procedures. The Improve Assessment Strategy sets out the overarching assessment requirements.
