Unit purpose and aim(s)			<p>This unit is designed to assess the knowledge and understanding of learners in the workplace context, when contributing to environmental safety. It can be assessed on or off the job. The learner must demonstrate their current knowledge and understanding, to meet all assessment criteria. Assessment methods appropriate to the needs of the learner must be used to generate satisfactory evidence of knowledge and understanding. It is recommended that this unit is taken with the relevant Occupational Skills Unit. The Improve Assessment Strategy for Proficiency Qualifications in Food and Drink sets out the overarching assessment requirements.</p>
