Additional information about the unit					
Unit purpose and aim(s)		This unit supports workforce development for those who contribute to problem diagnosis in a food business. The unit is designed for use primarily by operatives and others who carry out these workplace activities. The aim of the unit is to determine competent performance to recognised National Occupational Standards.			
Assessment requirements or guidance		This unit is designed to assess the skills of learners in			

<p>specified by a sector or regulatory body (if appropriate)</p>	<p>the workplace, contributing to problem diagnosis in food manufacture. It needs to be assessed on the job. The learner must be able to demonstrate their competent performance consistently over a period of time, to meet all of the assessment criteria. This will be achieved by at least two observations of performance in the workplace, and may be supported by witness testimony and other workplace evidence. Observations must ensure that the learner's working practice is at commercial speed and in compliance with standard operating procedures.</p>
